

FAQs

How can I register for the ATI Market Model Online Tool?

The ATI Market Model Online Tool can be accessed directly via the [ATI Tools Portal](#). Please refer to the *Registration Guidance* document for more information.

How does the ATI Market Model Online Tool work?

The ATI Market Model Online Tool is a platform that graphically summarises global commercial aerospace market forecast data based on ATI market and economic scenarios, classification filters and / or technology breakdown classifications. The core data is evaluated independently and externally of this platform via the ATI Market Model.

On how to use the ATI Market Model Online Tool please refer to the *How to use Guide* for more information. For a detailed description of the current Market and Economic Scenarios please refer to the *Scenarios Guide* document for more information.

What data does the ATI Market Model Online Tool contain?

The ATI Market Model Online Tool contains a summary of the global market forecasts by global deliveries (units and revenue) and global product markets (up to level 3 products) displayed graphically. Please refer to the *How to use Guide* and the *Scenarios Guide* documents for more information.

Can I enter or edit inputs and/or assumptions on the ATI Market Model Online Tool?

The scenario inputs and assumptions cannot be entered or changed by the user. Based on the specific *Options* and *Filters* selections, the ATI Market Model Online Tool only collates the relevant data from the core data, originally generated by the ATI Market Model.

Can I download the actual data from the ATI Market Model Online Tool?

The actual data from the graphs cannot be downloaded at this time. However, the user can download the charts generated based on *Options* and *Filters* selected in form of an image file in PNG format.

How do I ask a question or raise a technical issue in relation to use of the ATI Market Model Online Tool?

Please [contact us](#) giving sufficient details of the question you would like answered or the issue you have encountered, and a member of our team will be in touch.

How do I put forward a suggestion for improvement for future iterations or discuss the data within the ATI Market Model Online Tool?

Please [contact us](#) giving some details relating to the topic you would like to discuss, and a member of our team will be in touch. If it is a non-urgent issue or general feedback, we will follow up within 28 days.
