

Access

The ATI Market Model Online Tool can be accessed directly from the [ATI Tools Page](#) which contains other ATI tools, including the National Infrastructure Database and ATI Fixed Trade calculator. Alternatively, click *Resources* from the ribbon at the top of the main ATI webpage and select *Tools* from the dropdown options.

Registration

Interested users who do not hold an active ATI Market Model Online Tool account can register online via the [ATI Tools Page](#). Click Register and follow the following instructions:

- The *Organisation* textbox contains a dropdown menu containing a list of pre-populated organisations to select from. If your organisation is not included in the dropdown list, please enter the full official name of your organisation. Enter your official email address and password. The password does not have any specific requirements (e.g., uppercase, number, symbol, minimum number of characters) but has an algorithm that evaluates the strength of your password. Your registration will not be completed unless your password is classified as *Good* or *Strong*. You will be prompted to confirm your password.
- You will be required to select from the organisation *type*, organisation *size* and *sector* your organisation serves. If your organisation category does not fall under the options provided, select “other” and give additional details when prompted in the text box that appears. Except for organisation *size*, you may select multiple options in the categories provided.
- Please inform us as to why you are accessing and what it is that you expect from the Market Model Online Tool. If your reasons do not fall under the options provided, select *other* and give additional details when prompted in the text box that appears. Multiple response selections are permitted.
- Please review the Market Model Online Tool GDPR and Consent section, which includes the Terms of Use for the ATI Market Model Online Tool. You must consent for your registration to be completed.

Upon completing registration, a verification link will be sent to the email address submitted. You must verify your email address from the link in the email before you can access the tool. In some instances, the verification email may take up to 2 hours to appear in your mailbox or may be diverted to your junk / spam folders. If it has not been delivered within 2 hours, please [contact us](#) and a member of our team will be in touch.

Registrations are verified by a member of staff within the ATI and must comply with the published Terms of Use to access and use the ATI Market Model Online Tool. The ATI will remove user access if compliance is not met.

Signing in

Active account users can sign in via the [ATI Tools Page](#).

If you are experiencing difficulties signing in, completing your registration or unable to obtain the verification email, please [contact us](#) and a member of our team will be in touch.
